1. WE ARE:

The Shift2Rail (S2R) Joint Undertaking (JU) is a public-private partnership between the European Union and the rail sector, established by Council Regulation (EU) No 642/2014¹. The S2R JU, established in Brussels, is responsible for developing and implementing a new research and innovation programme for rail, funded and managed jointly by the Union and European Union Industry, with a view to supporting the European Union's long term transport policy objectives, including increasing the attractiveness and efficiency of rail and completion of the Single European Railway Area. It also seeks to increase the competitiveness of the European Union rail sector as a whole.

In particular, the priority research and innovation activities are defined in S2R Master Plan, including large-scale demonstration activities, required to accelerate the penetration of integrated, interoperable and standardised technological innovations necessary to support the Single European Railway Area and to achieve operational excellence of the railway system, while increasing capacity and reliability and driving down costs of railway transport. These activities will follow a holistic railway system and customer-oriented approach, and be structured around five key "Innovation Programmes" or "IPs", covering all the different structural (technical) and functional (management) sub-systems of the rail system, namely:

¹ OJ L 177, 17.06.2014, p.9

- IP1: Cost-efficient and Reliable Trains, including high capacity trains and high speed trains;
- IP2: Advanced Traffic Management & Control Systems;
- IP3: Cost-efficient, Sustainable and Reliable High Capacity Infrastructure;
- IP4: IT Solutions for Attractive Railway Services;
- IP5: Technologies for Sustainable & Attractive European Freight.

The S2R JU developed with its Members a long-term investment planning document, which translates the strategic research and innovation priorities of the S2R Master Plan into concrete actions, milestones and deliverables to be undertaken collaboratively by the S2R JU in the period up to 2024: the S2R Multi-Annual Action Plan (MAAP). The document is the basis for preparing each Annual Work Plan of the S2R JU, thereby helping to ensure continuity and synchronicity of investments, which will be further detailed in calls for proposals to award the R&I activities to be realized.
